Private Channel Session

Connect with one or more high vibrational Light beings.

In my office or by phone, your private channel session will be a very personal, healing experience. I often receive feedback that my clients went home with a sense of relief and peace. During the session, I will channel a Light Being for you, for example, an angel like the Archangels Michael, Metatron, or ascended master such as Jesus, Mother Mary, St. Germain. You will know when they arrive – you will feel the unconditional love they have for you! They will give you the information you seek, such as confirmation or guidance. Being in their presence is wonderful and you can't help but feel the incredible love they have for you! The Light Being who visits is usually one with whom you connect in some way, making the experience even more amazing.

The channel will start by providing you with important information, then allow you to direct the conversation to ensure all of your questions are answered. The most popular topics discussed in a session are relationships, careers and decision-making. The Light Being will help you understand yourself, your motivations and limiting thoughts. They will help you release what blocks you from moving forward and help you decide on your next step.

Your private channel session can be performed via telephone, but most people prefer to come to my office because it is a powerful experience to be right there with the energy of the Being. Be prepared for your channel session with a list of topics and questions. Answers to some of your questions may be the first information you receive because the channel already knows exactly why you have come!

Weekly Channel Group

Thursday Evenings at 7:00 Chicago Time

In Chicago's Far North suburbs, Kathy Georgen channels ascended Masters (Jesus, Mother Mary, St. Germain), Archangels (Michael, Metatron), and other Light beings (Council of Light). It feels wonderful to experience their unconditional love! They come to deliver a special message or to talk about spiritual Truths. They want to help each of us continue our spiritual quests, to awaken to the truths buried deep inside of us. The information often resonates at a deep level. Join us!

After our Guests have identified themselves, the group channel begins with a message or lesson from the Light being(s) followed by a high energy meditation usually related to the lesson. You will experience the unconditional love they radiate out to the world! The message or lesson, which takes 20-30 minutes, is followed by Q & A. Questions can either be related to the session, or personal. You will find the Beings very knowledgeable about events occurring on the earth, and they will usually relate the Divine Perspective on why these events occurred.

After all questions are answered, the Beings lead a guided meditation, for approximately 30 minutes. You won't need any meditation experience—just follow along. Meditating with a group of people is very powerful and rewarding! Meditations include time for you to heal, reflect and connect with God, the Divine Source.

You can attend my group in person or phone in. Callers are muted to contain noises on the line, so you must submit any questions by text or e-mail no later than 4 pm CST on the day of the session. Space is limited so please register early! Session length: 1 to 1-1/2 hours.
